

C-Bond Retains LRST

05 Jun 2017

C-Bond Systems retains LRST LLC. to expand its automotive glass directive. Formed by four equal partners – former Pittsburgh Glass Works (PGW) executives Jim Latch and Marc Talbert, along with former GlasPro/Elite Auto Glass founder Jerry Ray, LRST will focus on growing the automotive glass business and developing a global presence for C-Bond product and services.

C-Bond Systems, LLC (the “Company”), headquartered in Houston, Texas, is a nanotechnology company and sole owner, developer and manufacturer of the patented C-Bond technology. The company is engaged in the implementation of proprietary nanotechnology applications and processes to enhance properties of strength, functionality and sustainability within porous material systems. The company presently has a very strong focus in the multi-billion dollar glass and window film industry. According to the National Science Foundation, the development of nanotechnology will bring about “more changes in the next 30 years than we saw in all of the last century.” C-Bond Systems is the sole owner of the patented proprietary intellectual property, rights, title and interest in C-Bond technology.

LRST, LLC, launched in August 2010, is a management company formed to provide executive oversight, strategic management and consulting services, and to pursue joint venture opportunities in targeted industries. The Company's primary focus is identifying and implementing business growth and design opportunities with existing or start-up enterprises, and implementing lean operational efficiencies to increase profitability. The Company's founders and managing partners have extensive business leadership and entrepreneurial backgrounds with industry-leading companies, with specific expertise in the retail, distribution and services businesses.
